

# PROJECT OBJECTIVES

<b>Team ID</b>	<b>PNT2022TMID14659</b>
<b>Project Name</b>	Estimate The Crop Yield Using Data Analytics

By the end of this project, we will:

- Know fundamental concepts and can work on IBM Cognos Analytics.
- Gain a broad understanding of plotting different graphs.
- Able to create meaningful dashboards.

With the analysis that we do regarding estimation of crop yield, we will be able to:

- Know the production every time with variation of factors like climate, rainfall , etc.,
- Analyze and understand the patterns in the data (crop yield data)
